

# Drive

## Plankeye

When I feel afraid your comfort comes to me  
And then I can be all that you want of me  
These feelings I just can't hide  
Pushing up from deep inside  
Please take my life  
Get into the car and let's just drive  
I'm just a man, nothing more than what you see  
When I'm hurt I cry  
And when I'm cut I bleed  
These feelings I just can't hide  
Pushing up from deep inside  
Please take my life  
Get into the car and let's just drive
