

Chameleon

[Ryan Beatty](#)

When the lights fade out
And the people go
I get to see a secret side of you
No one has seen before
When we're all alone.Chorus:
Your colors always change
You never act the same with me
Chameleon...
It's like you disappeared
There's someone else right here with me
Chameleon...
I look into your eyes
And I don't recognize the one,
Who's sweet with me when nobody's around
Chameleon...Later with the crowd
You start acting differently
It's impossible to figure out
What you're in this for
And what you want from me...Re-chorus (x2)
