# Invisible Man

## Jesse Powell

This may come some surprise
But standing well within your sight
There's a love that never fades away
If I were to look into your eyes
Would my reflection materialize
As the love you need or what used to be
Or would I even see me
Here I stand, the invisible man
You don't even see what you do me, oh
Don't you see me standing here or have I disappeared
I might as well not even be here at all
Is funny how you see me
Baby when you need me
Right out of thin air
Somehow I re-appear
How am I suppose to feel
Wondering if your love is real
If I'm here in vain
I don't wanna stay but I can't stay away, oh
Here I stand, the invisible man
Baby you don't even see what you do me
Don't you see me standing here or have I disappeared
I might as well not even be here at all
Seasons might change that colors
But feelings remain when it's really love
You might not see me but I'll always be
Waiting right here for you to love
Here I stand, the invisible man
Baby you don't even see what you do me
Don't you see me standing here or have I disappeared
I might as well not even be here at all
Here I stand, the invisible man
You don't even see what you do me
Don't you see me standing here or have I disappeared
I might as well not even be here at all
