Oh yeah

Ooh Ooh

It's all how you think

Rise and live

ooh yeah yeah

ooh ooh

Verse 2

Now we stand on a quest to find a way

Join in line to do what they say

Fight against our own we do this all day

Selfishness is the order of the day

There is no regard there is no love

Not for the young not for the old

Forgetting everything about where we come from

Taking selfies with a dead man

Hearts on gold,destruction

But Jah is our way to redemption

ooh yeah

Love is the way to redemption

Chorus

Verse 2

Speaking in tongue,that's not our own

We gave them love,they took our goal

Can't talk to hard,or they break you down

Silence and all rebellious soul

Everything that is worse is

And they should know there is no stopping

The youths start rising again

Strong we will be stronger again

Well

Everything that is worse is

And they should know there is no stopping

The youths start winning again
We will be winning again
Chorus

Chorus—2
