I'm a warrior
A Centurion
I've traveled oh so farThe mist of glory
Clings to me
My guide a shining starI've stripped my soul
Of fear and hate
I've fought the lords of warI will search until
I meet my fate
In the quest of AvatarThe sentinels of Darksied
Are hunting for my heart
They will never defeat me
I shall find the AvatarMy lonely life is filled with blood
I've fought my wars and won
The final wave won't bring me down
My kingdom is to comeAvatar, Avatar
We're crying
Avatar, Avatar
We're dying
Avatar, Avatar
We're waiting
Avatar we are here
For your savingThe powers of the universe
Controlme, as it seems
The life that I have held so dear
Means nothing to me nowJupiter with all his might
I've worshiped from afar
The star above it shines so bright
I've found the AvatarAvatar, Avatar
We're crying
Avatar, Avatar
We're dying
Avatar, Avatar
We're waiting
Avatar we are here
For your saving
A god
Reincarnate
This world
Will live its fate

I tried
To stop the holy flood
I died
Spilling Darksied's bloodAvatar I've seen the truth
I give my life to you
Avatar it's all insane
All the war and all the pain
