

# Join Us On the Airwaves

## The Ham Band

Is anybody using this frequency, please?

CQ CQ CQ, Hello, CQ CQ CQ

You wake up every morning, you go to work, then home again; That old routine.

Turn on your TV, although they never show a single thing you haven't seen.

Checking out the internet's no fun no more, it's all just ads and spam.

You're looking for adventure. Well, you could become a ham.

Come and join us on the airwaves! Surf the skies and find new friends!

Let the world unfold before you!

You'll be the one who sets the trends.

Because you're not like those poor old wage slaves!

Change your life and start anew!

Come and join us on the airwaves!

You'll feel free and you'll be happy too!

Talk to friendly folk from far off lands of which you've never even heard.

Pick up local knowledge about all those world events that just occurred.

Turn your hand to contesting! Adrenaline starts coursing through your veins!

You could be the winner, and drink the finest of champagnes!

Come and join us on the airwaves! (Join us on the air!) Surf the skies and find new friends! (Surf and find new friends!)

Let the world unfold before you! (Let the world unfold!)

You'll be the one who sets the trends. (You will set the trends!)

Because you're not like those poor old wage slaves! (You're not like those slaves!)

Change your life and start anew! (Change and start anew!)

Come and join us on the airwaves! (Join us on the air!)

You'll feel free and you'll be happy too!

Come and join us on the airwaves! (Join us on the air!) Surf the skies and find new friends! (Surf and find new friends!)

Let the world unfold before you! (Let the world unfold!)

You'll be the one who sets the trends. (You will set the trends!)

Because you're not like those poor old wage slaves! (You're not like those slaves!)

Change your life and start anew! (Change and start anew!)

Come and join us on the airwaves! (Join us on the air!)

You'll feel free and you'll be happy too!

Come and join us on the airwaves! (Join us on the air!)

You'll feel free and you'll be happy too!

CQ CQ CQ, Hello, CQ CQ CQ
