

# The Haunting

## Avantasia

I can't count the days I've days I've roamed  
A stray ghost liked to wither on the vine  
A paling tales of days long gone  
I won't be untill you close your eyesSleep time  
Someone's always by your sideA thousand nights we've been calling your name  
Close your eyes but I won't go away  
We're there for you  
The cold embrace that you don't want to feel  
Must not be but you know it is real  
We're there for youDon't you waste your time and try  
To understand this figment of the lieDon't breathe the word to anyone  
By the time you phrase me I'll be goneSweet dreams  
See you in the twilight zoneA thousand nights we've been calling your name  
Close your eyes but I won't go away  
We're there for you  
The cold embrace that you don't want to feel  
Must not be but you know it is real  
We're there for youDown I must contain the wayward fantasy  
Where did al those wicked dreams come from  
Pictures in the dark they seem so eerily  
Winter night, I pray my mind is wrongI'm the spot they refuse to conceiveA thousand nights we've been calling  
your name  
Close your eyes but I won't go away  
We're there for you  
The cold embrace that you don't want to feel  
Must not be but you know it is real  
We're there for you
