

You Never Know

Warren G

A little something for the summertime while you on the grind
Getting yours, hell yeah, I'm getting mine
I take trips and dips just to recline
I blaze up the orange weed to relax my mind
Spend time with my kids on the weekdays
And I holla at my momma and my grandma on the three way
She say, "If you do right, baby boy, I promise you live a long life"
I can't argue, I try hard to not blast niggas, I walk past niggas
With my head up to the Skedai
Nigga tried to pull a fast one an Snoop Dogg
To get some shut eye
What I do to him, I can't speak, you know the episode
And the code on the street I keep it all the scriffin' y'all
But real street for y'all 'cause you never know
When you're gonna go, no
You never know where this road's gonna take you
Got to be strong, you got to hold on
'Cause you never know, where this life's
Gonna lead you, just hold on, you never know
From the killing, the robbing, the squabbling and jacking
Car jacks to kidnaps, what? Niggas be acting a fool
Trying to set me up at the park but I'm cool, act a fool
My daddy said, "Throw them thangs and stay strong"
My momma got sick so I'ma keep it strong
As long as I got my feet in the game
And make this beats and bring heat to the game
Fuck the fame, I got a little boy to see through
And him without me as like me without you
Keep it true and stay down for your grips
Homies and licks staying tight like this you never know

You never know where this road's gonna take you
Got to be strong, you got to hold on
'Cause you never know, where this life's
Gonna lead you, just hold on, you never know
You niggas never know which men are blasted for
Never know which man to kill just to settle the score
It wasn't long ago, I had this partner of mine
Knew him just a short time but he's stuck in my mind

My nigga lived perfect, said, the streets wasn't worth it
If you don't die rich in the game then what's the purpose
For this struggle? We stay piece to puzzle
Invest half the wealth and pray to God it doubles
We just in this, trying to get rich at the interest
Keep it pimping, stay with niggas that's relentless
Smoke dough just because I say so, money pronto
And niggas never would know, they never know, niggas
You never know where this road's gonna take you
Got to be strong, you got to hold on
'Cause you never know, where this life's
Gonna lead you, just hold on, you never know
You never know where this road's gonna take you
Got to be strong, you got to hold on
'Cause you never know, where this life's
Gonna lead you, just hold on, you never know
You never know where this road's gonna take you
Got to be strong, you got to hold on
'Cause you never know, where this life's
Gonna lead you, just hold on
