

Bam

EvilWezil

Never thought I'd fall in love
Now I stand corrected
Never thought I'd feel what I feel
Never been so affected
Now I know what I know
But right now it seems so subjective
Oh, oh
You surprised me, hypnotized me
Found my weakness, then you creped in, bam
Took my heart then, bam
Oh, you started to make my whole world just explode
Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then
Bam, I am obsessed
Bam, can't get nowhere
Bam, ever since we met
I think I know what love is, bam
I felt so secure with these walls around me
Boys would take me out
But bring me back where they found me
And there's no harm, no foul
'Cause they never got a chance to know me, yeah
You surprised me, hypnotized me
Found my weakness, then you creped in, bam
Took my heart then bam
Oh, you started to make my whole world just explode
Bam, my life has changed
Bam, can't concentrate
Bam, I was okay
Until we met that day then
Bam, I am obsessed
Bam, can't get nowhere
Bam, ever since we met
I think I know what love is bam
And if I had to walk a million miles
To find your smile I would, you know I would, babe

And if you took a trip to Costa Rica
And told me I need ya I would , I would, I would
 Yeah, yeah, yeah
 Bam, my life has changed
 Bam, can't concentrate
 Bam, I was okay
 Until we met that day then
 Bam , I am obsessed
 Bam, can't get nowhere
 Bam, ever since we met
 I think I know what love is bam
 You surprised me, hypnotized me
 Found my weakness, then you creped in, bam
 Took my heart then bam
Oh, you started to make my whole world just explode
 Bam
