Comedown

Puzzle

My eyes are sore
The city keeps spinning
Every time I'm dreaming
You chase me back into the nightmareEmptiness slowly take shape
Unveiling your face
I see you in every cornerComedown
You left me on a comedown
Comedown
You left me on a comedown
And I can't take no moreWhere did you go
I wish that I could breath in
The memories of your skin
My toxic addictionLook across the floor
Stains where I was bleeding
Injecting lies wishing
You'd come back to my bedComedown
You left me on a comedown
Comedown
You left me on a comedownI can't let go
Of the memories
Where did you go?
Toxicity
I can't let go
You still haunt me in my dreams
My comedownComedown
You left me on a comedown
Comedown
You left me on a comedownI can't let go
Of the memories
Where did you go?
Toxicity
I can't let go
You still haunt me in my dreams
My comedown
