Say Goodbye Good

The Promise Ring

Say goodbye good, hey hey hey
We might not be fooling around today
If we go all the way, hey hey hey
All the ills after us is the songs that we playSay goodbye good, hey hey hey
All we've got is right now if you're not going my way
My eyes are listening, hey hey hey
We might not mean anything that we'd say, no no way, no way
We might not be fooling around today, no way, no wayTrees have caught fire when your eyes lit up
The season's changed and the movie has stopped
Front lights are out, the curtains are drawn
Now I was before our first days are goneAnd at the end of the song, so long
We might not know what we've done so long
We might not know what we've done so long
We might not know what we've done, no no way
We might not be fooling around todaySo say goodbye good, hey hey hey
Say goodbye good, hey hey hey
Say goodbye good, hey hey hey
Say everything good, hey hey hey
Say everything good, hey hey heySay goodbye good, hey hey hey
Say goodbye good, hey hey hey
Say goodbye good, hey hey hey
Say goodbye good
