Negative Sides Of Optimistic Eyes

Less Than Jake

Trying not to hold my breath
But my lungs are filled inside this chest
And I've been helpless and I couldn't have cared less
Of anything that could or has been said
In the future, past and present tense
Been my own best friend
With clouds over my head
Been on this sinking ship
Decided that it's sink or swim
The waters coming in
Foundations wearing thin
Sometimes I wonder
If I'll ever be missed
If I swim with the ship again
Trying not to hold my breath
But my lungs are filled inside this chest
And I've been helpless and I couldn't have cared less
Of anything that could or has been said
What those words mean or just what they meant
In the future, past and present tense
Been my own best friend
With clouds over my head
Been on this sinking ship
Decided that it's sink or swim
The waters coming in
Foundations wearing thin
Sometimes I wonder
If I'll ever be missed
If I swim with the ship

Giving up inch by inch
In twenty words or less
I'll describe this mess
I've drank to forget
Full of hopelessness
Never cared what they said
And I'm on this edge in crisis
And I couldn't care less
Been my own best friend

With clouds over my head
Been on this sinking ship
Decided that it's sink or swim
The waters coming in
Foundations wearing thin
Sometimes I wonder
If I'll ever be missed again
Been my own best friend
With clouds over my head
Been on this sinking ship
Decided that it's sink or swim
The waters coming in
Foundations wearing thin
Sometimes I wonder
If I'll ever be missed
If I could swim with the ship
Giving up inch by inch
And I've lost my own best friend
