

# Love And Devotion

[Mishka](#)

I throw my line into the sea  
So many things that you want I and I to be  
I saw some seeds in the soil  
Cause I don't wanna see life spoil I give it love and devotion [2x] Everyone need to be free  
Got to make freedom by totality  
Remember your roots, oh, where you're goin'  
Remember your roots, uh, the places you've been  
And all the times we've been together  
And all the times we've been as one Its love and devotion [2x] I make my way, I cross the land  
I always sail across the ocean, yeah  
Just to land into your hands, oh  
To sing a song of love, eh Love and devotion [3x] Won't you live it up  
Love and, love and, love and, lalala All the times we've been together  
And all the times we've been as one It's love and devotion
