

# If You've Got Love

[John Michael Montgomery](#)

If you've got faith and you believe in what you're living for  
You can stand your ground when the devil's at your door  
And a little hope can help you when the road is getting rough  
But there's nothing quite like life, if you've got love  
If you've got love, you can move a mountain, little bit  
further down the line  
You can do it all at once or one rock at a time  
You can turn an ordinary picture into a priceless work of art  
It's what you can do if you've got love in your heart  
Now there's nothing like a real good friend to tell your  
troubles to  
But there's just so much a real good friend can do  
'Cause it takes another's touch to chase the darkest blues away  
If you've got love, you've got what it takes  
If you've got love, you can move a mountain a little bit further down  
the line  
You can do it all at once or one rock at a time  
You can turn an ordinary picture into a priceless work of art  
It's what you can do if you've got love in your heart  
(If you've got love)  
You can move a mountain  
(If you've got love)  
Further down the line  
You can do it all at once or one rock at a time  
You can turn an ordinary picture into a priceless work of art  
It's what you can do if you've got love in your heart  
It's what you can do if you've got love in your heart  
(If you've got love)  
You can move a mountain further down the line  
(If you've got love)  
You can do it all at once or one rock at a time  
(If you've got love)  
You can turn a picture into a priceless work of art  
(If you've got love)  
It's what you can do if you've got love in your heart
