Back To Allentown

Bracket

I wish I could make it back to Allentown
Maybe I can get someone to show me aroundYou were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belongI wish I could make it back to Allentown
Maybe I can get someone to push me aroundYou were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belongYou don't matter as much as you think
Or much at all
And when you become extinct
I'll watch you fallI wish I could make it back to Allentown
Maybe I can get someone to push you aroundYou were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belong
