

Back To Allentown

Bracket

I wish I could make it back to Allentown
Maybe I can get someone to show me around You were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belong I wish I could make it back to Allentown
Maybe I can get someone to push me around You were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belong You don't matter as much as you think
Or much at all
And when you become extinct
I'll watch you fall I wish I could make it back to Allentown
Maybe I can get someone to push you around You were right, I was wrong
I've been this way for far too long
You hate me, I love you
Show me a place where I belong
