

Lonesome, I Know You Too Well

[Shawn Mullins](#)

It's 3 a.m. and the snakes have moved in
I'm playing to 4 drunks and me
But the beer is cold and the memory is old
And the lights are so bright I can't see And lonesome, I know you too well
You ring in my ears just like a bell
And your hollow like a dark empty well
Lonesome, I know you too well Now time, it stands still and spins like a wheel
Whenever I see her around
But she doesn't know and I'll never show
There's too many eyes in this town And lonesome, I know you too well
You ring in my ears just like a bell
And your hollow like a dark empty well
Lonesome, I know you
