

Ease Your Pain

David Nail

I can be your midnight "are you up?" every time that he does, he does you like he does
I can let you dry your tears, tell you what you wanna hear, but when you've had enough,

 baby I, I can be that shot of whiskey, your memory Novocain

 I can be the sunshine shining through the rain

 let me be the one addiction running in your veins,

 you don't have to hurt no more baby I can ease your pain

 baby I can ease your pain I can't read your mind, girl its up to you

 We can take the edge off, if that's what's you wanna do

 Bring your misery .. lay it all on me

 You don't need no 100 proof Baby I am

 I can be that shot of whiskey, your memory Novocain

 I can be the sunshine shining through the rain

 let me be the one addiction running in your veins

 you don't have to hurt no more baby I can ease your pain

 baby I can ease your pain come on let me fix you up, let me be your favorite drug

 come on let me fix you up, let me be your favorite drug

 come on let me fix you up, let me be your favorite drug

 come on let me fix you up Baby I am

 I can be that shot of whiskey, your memory Novocain

 I can be the sunshine shining through the rain

 let me be the one addiction running in your veins

 you don't have to hurt no more baby I can ease your pain

 baby I can ease your pain
