Sleep Around

Maritime

Well, we're kicking everybody out
Cause the party's getting way too loud
And the kid in the back is tearing all of my posters down

And now the cars are saying: 'Shake it up'
But I've been shaken up enough
And I can't live my life like pop song anymore

I want to get lost in my life and letters
Sleep around the clock until we all feel better
Get lost in my life and letters
Sleep around the clock, aha
Sleep around the clock, aha

We all need a second chance
On a first and last romance
Cause the bigger the heart
The harder that it falls in love

And I've been reading the daily news
It's just something for my mind to do
When I'm stuck away from you
I spent the day on ice to push me through

I want to get lost in my life and letters
Sleep around the clock until we all feel better
Get lost in my life and letters
Sleep around the clock, aha
Sleep around the clock, aha

Sleep around the clock in my life, yeah
Well, I want to
Sleep around the clock
And get lost, yeah
Well, I want to
Sleep around the clock in my life, yeah
Well, I want to
Sleep around the clock
And get lost, yeah
