

# One Of The Three

James

You were one  
One of the three  
One in three must find some peace  
You were one  
One of the three  
I need proof before belief Oh well, you just knew they'd come for you  
So it was suicide, suicide  
Oh well, now you got just what you want  
I hope you're satisfied One of the three (x4) You were one  
One of the three  
One in three must find some peace  
You were one  
One of the three  
I need proof before belief Oh well, I guess you're not to blame for what they've done to me in your name  
Oh well, it's a shame you got so famous for a sacrifice One of the three (x8) You were one  
One of the three  
One in three must find some peace  
You were one  
One of the three  
I need proof before belief You send forth your lamb to their slaughter (x4)
