First Time

One Vo1ce

From the first time I saw you boy
You've been always on my mind
From now on until the end of time
I pray that you'll be mine
Day and night I think about you
And how I need you here with me
Just to be with you in your arms at night
(that's where I wanna be) 2xAlone in my room, I've got you on my mid
Been thinking about you all the time
And what happened last night
The look in your eyes it really turned me on
Now I miss you every minute your gone
So I wrote you this song
Chorus:
The very first time that we kissed
I never had a precious moment like this
You're always on my mind
You're on my mind every time
(I think I love you boy) 2xI wish upon the stars above
Hoping I'm the one you're thinking of
I know it's more than puppy love (and some thing about the way you make me feel)
Talking for hours on the phone
And I wish that I could call you my own
All of this cause of the first time we kissedCHORUS
From the first time I saw you boy
You've been always on my mind
From now on until the end of time
I pray that you'll be mine
Day and night I think about you
And how I need you here with me
Just to be with you in your arms at night
(that's where I wanna be) 2x
