Overload

Fantasia Barrino

Whoa hoa, whoa hoa, whoa hoa, whoa aaah[Verse 1:]
I know im not weak
These are heavy thoughts
Weighing on my mind (Oh aaah)
I got cargo with me
All these memories feel
Like a thousand pounds (Oh aaaah)
In my bed tryna sleep
The ceiling lowers down
I feel it on me now (Whoa oh aaaah)[Bridge:]
I can read verses
Further and further
I just can't do this alone
I just can't do it alone
I can board airplanes
Higher and higher
I just can't move em alone
I just can't move em alone
It's too heavy for me[Chorus:]
Overload, overload, Overlo--oad
Take over for me
It's too heavy for me
Overload, over load
I know superman won't save
But can somebody lend a hand
It's too heavy for me
Overload, Overload, Overload[Verse 2:]
Drag my life along
By the end of the rope
Ima make it by
I'm trying
On the other side
Someone's tugging hard
Only getting stronger (whoa oh aaah)
Balance bricks on my shoulders
With concrete in my shoes
I'm not strong enough
Help me out, help me out[Repeat Bridge][Repeat Chorus][2nd Bridge:]
I can't climb no mo up the world

With both my hands here holdin the world
And both my hands can't hold up the world
It's coming down, it's coming down[Repeat Chorus]
