Time Bomb

Iration

You've seen her at a party yeah
She's doing her rounds
She likes to get it started
She likes to get loud
She's poppin' that champagne
She's taking shots down
She's living for the momentShe's a time bomb
Trying to take you out
The ticking of her heart is the only sound
She's a time bomb
Bound to detonate
Try to cut her wires but you're too lateWhiskey stain on her dress now
She's wearing it proud
There's nothing you can tell her
Cause she's starting to shout
Now she's spraying that champagne
All over the crowd
She's living for the momentShe's a time bomb
Trying to take you out
The ticking of heart is the only sound
She's a time bomb
Bound to detonate
Try to cut her wires but you're way too late
She's a time bomb
Trying to take you out
The ticking of her heart is the only sound
She's a time bomb
Bound to detonate
Try to cut her wires but you're too lateShe's a time bomb
Trying to take you out
The ticking of heart is the only sound
She's a time bomb
Bound to detonate
Try to cut her wires but you're way too late
She's a time bomb
Trying to take you out
The ticking of her heart is the only sound
She's a time bomb
Bound to detonate

Try to cut her wires but you're too late
She's a time bomb
Trying to take you out
The ticking of her heart is the only sound
She's a time bomb
Bound to detonate
Try to cut her wires but you're too late
