

# Past in Present

## Feist

The scarlet letter isn't black  
Gotta know who's got your back  
Because they're right in front of you  
Because they're telling you the truth So much present  
Inside my present  
Inside my present  
So so much past Inside my present  
Inside my present  
Inside my present so so Feeling it too dark to bright  
When a wrong becomes a right  
Oh when a mountain fills with light  
It's a volcano, it's a volcano  
It's a volcano, it's a volcano And so much present  
Inside my present  
Inside my present  
And so so much past Inside my present  
Inside my present  
Inside my present  
And so so much past Inside my present  
Inside my present  
Inside my present  
So so much past Inside my present  
Inside my present  
Inside my present  
And so so
