We Need Love

Johnny Osbourne

In Birmingham, in London, what we need now is love
Not hate and fear, blood and tears, what we need now is loveWalking down my street tonight, West London style
There's something in the air tonight, I haven't felt for a while
I see the fear, I see the fear in your eyes
When they keep you afraid you believe all their liesIn the county towns, in football grounds, what we need now is love
Not suspicion, division, what we need now is love
In Washington, New York City, what we need now is love
Not hate and fear, blood and tears, what we need now is loveWalking down my street today, West London style
There's something going on today, everyone's acting wild
I see the fear, I see the fear in your eyes
When they keep you afraid you believe all their liesIn Liverpool, in Glasgow, what we need now is love
Not suspicion, division, what we need now is love
In Washington, New York City, what we need now is love
Not hate and fear, blood and tears, what we need now is loveWhat we need now is love
What we need now is loveWhen the sun goes down, on the mill towns, what we need now is love
Not suspicion, division, what we need now is love
In Washington, New York City, what we need now is love
San Salvador, me amor, what we need now is loveWhat we need now is love
What we need now is love
What we need now is love
What we need now is love
