

Why Did You Land?

Guided By Voices

Standing around hoping everything works out
'Cause I want them all to work out
You were always so in love with the truth
Why did you change? Why did you land? Look at the photograph
Nothing is real
Spend another lonely life
With nothing to feel Was it something in the stories everyone told you?
Maybe you believe them, maybe you should read them
Go back to where you came from
Why did you land? You could've stayed in flight forever Look at the photograph
Nothing is real
Spend another lonely life
With nothing to feel
