It's Amazing

Smoke City

Mesmerized by your eyes
The window to your soul
In the match am I your goal?
Because I feel you so
You follow me to my dreams
And to my pillow seams
In the night I heard each and every word

It's amazing the way myself responds
To the slightest touch you give me
It's so hard for you always
And the place where I want to be is inside you

I dream I dream I dream
I dream I dream I dream
I dream I dream I dream

Mesmerized by your eyes
What secrets do you keep?
The language that you speak
Torments me in my sleep

It's amazing the way myself responds
To the slightest touch you give me
It's so hard for you always
And the place where I want to be is inside you

Your beau-ti-ful eyes I see you-and-your beauty inside
The touch of your voice,
I take it all, hear you
Talking in your language
Falling with the touch of you
Fully find my heart now
To wander by your big old
Tree-because

It's amazing the way myself responds
To the slightest touch you give me
It's so hard for you always

And the place where I want to be is inside you

It's amazing the way myself responds
To the slightest touch you give me
It's so hard for you always
And the place where I want to be is inside you
