

# Maybe (Braithouse extended remix)

## Brainstorm

My body, My hand  
My heaven, My land  
My guardian angel is mine You say...  
My dreams, My head  
My sex, My bed  
And it's my Corona with lime And then I say ..  
Maybe we could divide it in two  
Maybe my animals live in Your Zoo You say..  
My hate, My frown  
My kingdom, My crown  
My palace and court is mine You say..  
My lights, My show  
My years to grow  
The time that I spend is fine But then I say ..  
Maybe we could divide it in two  
Maybe my animals live in Your Zoo  
Maybe I'm in love with You.... But You say...  
My coat, My hat  
My bones, My fat  
My zipper is shut by me You say..  
My Skin, My blood  
My devil, My God  
My freedom is what You see But then I say  
Maybe we could divide it in two  
Maybe my animals live in Your Zoo  
Maybe I'm in love with You.... My beginning, My end  
My nuclear bomb to pretend.....
