

The Sound of Goodbye (Dark Matters Extended)

Perpetuous Dreamer

Every face I see is cold as ice
Everything I scratch is pain
Ever since I lost imagination Like a string that flows into the sea
I am lost for all eternity
Ever since you took your love
Away from me Sometimes the sound of goodbye
Is louder than any drumbeat
Sometimes the sound of goodbye
Is louder than any drumbeat Sometimes the sound of goodbye
Is louder than any drumbeat
Sometimes the sound of goodbye
Is louder than any drumbeat
