

# Little Girl

## Loverboy

How can I make you love me  
How can I make you mine  
How can I make you at all  
When you don't know what goes on inside your mind  
What goes on inside  
Don't wanna make you lonely  
You need it every day  
I wanna make you the only  
But you don't know what goes on inside  
You're too little, little girl  
You're too little, little girl  
You're too little, little girl, to fall in love  
Little, little girl  
You're too little, little girl  
You're too little, little girl, to fall in love  
How can I make you feel it  
And make you lose control  
How can I make you need it  
When you don't know what goes on inside your mind

What goes on inside  
How can I prove it to you, baby  
You make me wait all day  
I'm gonna save it til tomorrow  
Cause you don't know what goes on inside

Chorus

How can I make you trust me  
And make you lose control  
How can I make you at all  
When you don't know what goes on inside your mind  
What goes on inside  
How can I prove it to you, baby  
Just wait and see  
I'n gonna make you prove it  
That you don't know what goes on inside  
Chorus
