

Don't Come Knocking

The Datsuns

Don't come knocking on my door
I don't wanna see your face no more
Cause girl its really smart
To forget I keep in the dark So I say, lets move on, wanna
Keep outta sight, outta mind Oh just, just a shame
Not that I'm about to take the blame
Please find, find the heart
Say goodbye, learn to play the part So I say, lets move on, wanna
Keep outta sight, outta mind Don't come knocking on my door
I don't wanna see your face no more
It ain't a pleasure to see you go
But I'm much too cold to let you know Don't come knocking on my door
I don't wanna see your face no more
Don't come knocking on my door
I don't wanna see your face no more
Don't come knocking on my door
