Out of Space

Cosmonet

I take a brain to another dimension
I take a brain on a parallel universe script
I'm the only no parallel bitch
things funny them shit
moving them deep then I'm..them spit you spit
get you little..frozen the hit
or the weapon..I'ma just in this clip
blastin off last up you might be stuck on this dick

look at this bitch, take take wish to, wanna get hit hit
for fifth look quick, four quick in a whip
..is this
I won't send it to out of space
just find another..
I won't send it to out of space just find another..
I won't sent it to out of space just find another..
I won't sent it to out of space just find another..
