Sunny Day

Malia

[Verse 1]

Days get brighter when you come around
Oh I love when you come around
So feel free to stop by
Got me singing those sweet songs along with your symphony

[Transition]

Hmmm your energy has got me
Feeling lighter, you bring life when you come around
It's no wonder babe, feel like summer with the now

[Chorus]

Nothing wrong with this day, I got no complaints I'm okay
Just another day without you babe
Said nothing wrong with today
Still wouldn't mind if you came my way
Just another day without you babe

[Verse 2]

I'll scribble down these words of passing memories
Lost in my imagination, I'll pass the time in my daydream
I like the way you paint the sky making lively fantasies
Hey I wouldn't mind if you came and did the same for me

[Transition]

I'm feeling lighter, you bring life when you come around
It's no wonder babe, feel like summer with the now

[Bridge]

My spirit is restless and my mind is racing
I'm everywhere at once but still I'm here waiting
Your presence brings vitality
We create our own reality

So I colored you into my world

[Chorus]

Nothing wrong with this day, I got no complaints I'm okay
Just another day without you babe
Said nothing wrong with today
Still wouldn't mind if you came my way
Just another day without you babe
