Silence Is Their Drug

Sponge

We, we can do anything
Why do they beat us down with their lies?
They object us, they reject us
Time after time then we ask ourselvesWhy are we alive?
Why are we alive?
Why are we?I, I can't hear anything
They make silence their drug
I, I can't hear anything
They make silence their
They make silence their drugWe, we are everything
Why do they beat us down to their size?
The better we fit the bigger they get
And we justify their lousy existenceWhy are we alive?
Why are we alive?
Why are we?I, I can't hear anything
They make silence their drug
I, I can't hear anything
They make silence their drugI, I can't hear anything
They make silence their drug
I, I can't hear anything
They make silence their drugThe better we fit the bigger they get
And we justify their lousy existenceWhy are we alive?
Why are we alive?
Why are we?I, I can't hear anything
They make silence their drug
I, I can't hear anything
They make silence their drugI, I can't hear anything
They make silence their drug
I, I can't hear anything
They make silence their
They make silence their drug
