

# Silence Is Their Drug

## Sponge

We, we can do anything  
Why do they beat us down with their lies?  
They object us, they reject us  
Time after time then we ask ourselves Why are we alive?  
Why are we alive?  
Why are we? I, I can't hear anything  
They make silence their drug  
I, I can't hear anything  
They make silence their  
They make silence their drug We, we are everything  
Why do they beat us down to their size?  
The better we fit the bigger they get  
And we justify their lousy existence Why are we alive?  
Why are we alive?  
Why are we? I, I can't hear anything  
They make silence their drug  
I, I can't hear anything  
They make silence their drug I, I can't hear anything  
They make silence their drug  
I, I can't hear anything  
They make silence their drug The better we fit the bigger they get  
And we justify their lousy existence Why are we alive?  
Why are we alive?  
Why are we? I, I can't hear anything  
They make silence their drug  
I, I can't hear anything  
They make silence their drug I, I can't hear anything  
They make silence their drug  
I, I can't hear anything  
They make silence their  
They make silence their drug
