

# Torero

## Korroskada

Hey Chico, one more time

I met him on a bus in Barcelona  
We kinda got to talkin'  
But he did all the talkin'  
I asked him what he did in Barcelona  
In sunny Barcelona  
And this is what he said

You are fortunate my friend  
Of this there is no doubt  
For everywhere I go the people shout

Hey torero make way for Don Jose the great torero  
In Spain I am a famous Caballero  
I fight the bravest bull in all the land  
With the flip of the hip of the music of the band  
I cha cha, the bull is so confused because I cha cha  
I never kill him, only if he gets in my way  
Torero, torero play

He bragged about the many señoritas  
Who showered him with flowers  
With big bouquets of flowers  
He told me that in Holly wood  
They want him to be like Marlon Brando  
The great big movie star  
But as he left the bus he met two men in white  
He shouted as they took him out of sight  
Hey torero
