

Slippi

Animal Collective

I learned a lot about you in a day at school
you gotta think about the energy
and tell us that you try to (conclude) your day at school
I learned a lot about you in a day at school
I think that people knew what it was Well I had a little slippi
And I held it as a baby
And I wanna pick a mommy
Cause I'm sentimental slippi
Well I'm gonna raise a family
And I gotta have a baby
And she'll have a little slippi

And she'll say oh my little slippi little slippi I could cheer up the tear that I hide from Mr. (--)
she's not growing up, we want music with our eyes closed I feel all right I think we've been a bit (tasteless)
