

The Real Thing

Bo Bice

Every word I say I mean it
Every single day I feel it
But sometimes when you talk
It's obvious you want to show it
So don't blow it Tell me what we got, tell me it's a lot
Tell me it's the real thing
Tell me not to change and always be the same
Tell me that's a good thing
It's a good thing Tell me not to lie, tell me not to wait
Tell me that you want the same things as me
Tell me that it's fate, driving me insane
Tell me it's the real thing
That keeps me hanging on I can read the signs between us
And I feel it inside when you come nearer
There's a stillness in the air
Like no one else is there
And every moment stays in the moment, yeah Tell me what we got, tell me it's a lot
Tell me it's the real thing
Tell me not to change and always be the same
Tell me that's a good thing
It's a good thing Tell me not to lie, tell me not to wait
Tell me that you want the same things as me
Tell me that it's fate driving me insane
Tell me it's the real thing
That keeps me hanging on Sometimes it hurts to watch you leave
It feels like you take a part of me with you
I never know how it'll be
I guess it's just a mystery
But is it the real thing
That keeps me hanging on? Tell me what we got, tell me it's a lot
Tell me it's the real thing
Tell me not to change and always be the same
Tell me that's a good thing
It's a good thing Tell me not to lie, tell me not to wait
Tell me that you want the same things as me
Tell me that it's fate, driving me insane
Tell me it's the real thing
That keeps me hanging on Tell me what we got, tell me it's a lot
Tell me it's the real thing

Tell me not to change and always be the same
Tell me that's a good thing
It's a good thing Tell me not to lie, tell me not to wait
Tell me that you want the same things as me
Tell me that it's fate, driving me insane
Tell me it's the real thing
The real thing
