

# World Of Shit

## Eels

In this world of shit  
Baby you are it  
A little light that shines all over  
Must take over and see us through the night  
Daddy was a troubled genius  
Mama was a real good egg  
Why don't we just get together  
For whatever and see if it's alright?  
I spent so many days  
Just staring at the haze  
And I think that that's a book  
That I don't have to write again

Now when I rise I shine  
I got you on my mind  
And the question isn't if  
The question is merely when  
Baby I confess I am quite a mess  
So, let's get married  
And make some people  
More than equal in this world of shit  
I will make a pledge  
To get down off the ledge  
You and I belong together  
And forever we will have our love
