Sharin' the Moonshine

Sawyer Brown

There ain't nothin' that'll rattle your chain
Like the top laid back on a Chevrolet
And the things the midnight makes you say
When you fall in love
And the sundown brings a whole new world
Of good time boys and late night girls
It takes your breath - it starts to swirl
The other stars above.So, lets share in the moonshine
Yeah, we'll share in the moonshine
Yeah, we'll share in the moonshine
On a hot summer nightWhen the stars come out and start to play
The magic melts the blue away
And at the end of every day
There's a night-time jubilee
And for the lifetime lover you can't miss
When it starts in the evenin' with a gentle kiss
And old man Cupid can't resist
It's a twilight mysterySo let's share in the moonshine
Yeah we'll share in the moonshine
Yeah we'll share in the moonshine
On a hot summer nightOh when the wind is still
And the stars are over here
And we'll cruise till it's right
On a hot summer nightSo let's share in the moonshine
Yeah we'll share in the moonshine
We'll share in the moonshine
On a hot summer night
On a hot summer night
On a hot summer night
On a hot summer night
On a hot summer night
Whooooooo
