Democide

Exodus

Monsters, proudly displaying their deeds for the world to proscribe
Demons, walking the earth hell bent on their genocide
Complete destruction, blood lust seduction
Drinking warm blood with a smile
Beyond the horror, they're born to suffer
Hundreds of thousands defiledShow no mercy, slow executions
Laugh while mutilating
God be damned, war is hell
God be damnedDissected while still alive, the violence you live to endure
Cleansing, inherently violent, purging the world for the pure
Triumph of evil, hatred primeval
Unenlightened corrupted souls
Orgy of murder, heartless and vile
Merchants of death in controlShow no mercy, slow executions
Laugh while mutilating
God be damned, war is hell
God be damned, war is hell
God be damned, war is hellMonsters, proudly displaying their deeds for the world to proscribe
Demons, walking the earth hell bent on their genocideShow no mercy, slow executions
Laugh while mutilating
God be damned, war is hell
