

Hold Down the Fort

Mobb Deep

Yeah, we gotta hold down the fort
We gotta hold down the block
We gotta hold down the fort
We gotta hold down the fort, check itNineteen-ninety motherfuckin' three, right?
What's your new year's resolution motherfucker?
Check this out, we gotta hold down the block
Word is bond kid, uh, aightBeef on the block, who is he?
Set it Dunn, me and my automatic likes to get busy
Ghetto representer, there ain't no motherfucker better
While you be catchin' feelings like a love letterI gotta hold down my fort and won't lose
Nigga die because I got the tec 9 blues
Bulletproof polo, I'm goin' out solo
Whoever wanna come better step like they know'Cuz I'ma survive, more rougher than a certified
Around the way, parlay and get high
My mega blast will last in days to pass
Niggaz shoot, too fast, to pull out your gun lastThat's why I like to spark first and shoot your
Bitch ass down your next ride will be a fuckin' hearse
'Cause little niggaz don't die son
Half step and get that ass lit up like a flare gunCops they want static, whatever they can have it
My name is prodigy and I'm known to cause havoc
And when I flip I be on some ill shit
I walk the street, like a real super trooperThe block shit proper, who once got had
Mad beef with the dread who sold me that dirt bag
Mad props to the bad little niggaz in the neighborhood
Long live the short, gotta hold down the fortGotta hold down the fort
Gotta hold down the fort
We gotta hold down the fort
You gotta hold down the fort
We gotta hold down the fort
You gotta hold down the fort
So hold me down son, hold me down
(Yeah, yeah, yeah)Yeah, how we go son, pull out the motherfuckin' M1
Straight from the 'bridge so you know where I'm from
The little, project nigga, I gets no bigga
Yo, my crew is buck so mother fuck how you figureStep the fuck back, nigga, attack with the mack
'Cause word is bond it's on
Shit is real around the way so sit back and take notes
Dead you on your coat, then cut your motherfuckin' throatTakin' life like a thief in the motherfuckin' night
While I write write, you bite bite bite

Check it, yeah, call that nigga
