

Monday Morning

[Adam Holmes](#)

Well my heart starts beating baby so damn quick
like a fever in my body and it makes me sick
you know i love you, we can be so good
laying on a monday morning i'll be feeling just the way i shouldI am still aware that you need your space
when you do tell me darling i dont mind to wait
you know i love you this is something true
laying on a monday morning ill be feeling just the way i dowell your longing to be lonesome but you need to be
near
dont you worry bout tomorrow youve got nothing to fear
you know i love you we can be so good
layin on a monday morning ill be feeling just the way i should
all the long and lazy days and the cigarettes
i can see it your eyes from the day we met
that i would love you despite your solitude
laying on a monday moring ill be feeling just the way i should
Well my heart starts beating baby so damn quick
like a fever in my body and it makes me sick
you know i love you, we can be so good
laying on a monday morning i'll be feeling just the way i should
all the long and lazy days and the cigarettes
i can see it your eyes from the day we met
that i would love you despite your solitude
laying on a monday moring ill be feeling just the way i shouldWild woman and wine, youll be on my mind
till the rivers run dry
till the day i die
