I Wish

Mini Viva

Oh, no
Oh, no
I was one with you, breathing
And was close to you, in your sleep
And I don't deny, waiting
For the little light from you
And I wish that I had tried
Mmm baby I now wished that 'us' away
Oh no, if I wish that hard enough would love come home, home again
And I wish that I had tried
Mmm baby I now wished that 'us' away
Oh no, if I wish that hard enough
Would love come home, home again
And I go oh no
He could be the one who hits the light inside my soul
Oh baby, This could be the last of my controlÐ¿
