

We're Forever (feat. Nuthin' Under A Million)

Laidback Luke & Marc Benjamin

old wounds and scars
will touch your heart
yeah i know what it feels like
you only walk
dark windy roads
i can tell
cause ive been there
time wont heal a thing
its just something
you say when
you dont know
where to begin
when it all falls to pieceswe light our souls
like fire
and burn together
and if we fall
we know
we fall together..
feel your heartbeat rising
even higher
oh if anythings meant to last
then we're forever..we're forever.. 4xthis is the start of something new
call it home this is freedom
no wind in sight
a brand new tune
no horizon that we know
time wont heal a thing
its just something
you say when
you dont know where
to begin
when it all falls to pieceswe light our souls
like fire
and burn together
and if we fall
we know
we fall together..
feel your heartbeat rising
even higher

oh if anythings meant to last
then we're forever..we're forever.. 4x
