After We Make Love

Whitney Houston

I've been waiting such a long time
For a love that's real to come my way
Gonna take some getting used to
Now that love is here to stay
After we make love, I'll be lost in the afterglow
You're all I'm dreaming of, I just can't, I just can't let the feeling go
After we make love, there's no doubt in my mind I've been touched by
All that heaven and earth will allow, all that matters is right here and now
Now the world is filled with wonder
You turned my life around in just one day
I love the spell you put me under
With just one kiss you take my breath away
After we make love, feels so good to be lost in the afterglow
You're all I'm dreaming of, I just can't, I just can't let the feeling go
After we make love, there's no doubt in my mind I've been touched by
All that heaven and earth will allow, all that matters is right here and now
All those lonely days and nights
Were well worth going through
I'm so glad I never gave my heart away
It's like I've waited all my life
So I can give it all to you
I've been waiting such a long time
For a love that's real to come my way
It's gonna take some getting used to
Now that love is here to stay
After we make love, feels so good to be lost in the afterglow
After we make love, I just can't, I just can't let the feeling go
After we make love, there's no doubt in my mind I've been touched by
All that heaven and earth will allow, all that matters is right here and now
All that matters is right here and now
