Seen the Light

Supergrass

Now that our lives have seen the light, oh
Well the world lies twisted and weird
It's like our minds have taken flight, oh
Pedalo rides up to the sun, oh yeahWell, what you do is up to you
Take my hat and push on through
Well you can try to understand
I'm a rock n' roll singer in a rock n' roll bandNow that our eyes have seen the light, oh
Well the road lies open and clear
It's like our minds have taken flight, oh
Like the railroad down to the sea, oh yeahWell, what you do is up to you
I'll take my hat and push on through
Well you can try to understand
I'm a rock n' roll singer in a rock n' roll band
