

If It's In My Mind, It's On My Face

Seal

If you cant find your place in this world
Your life means something to me
Feels like every Mondays just a day in the week
If you're lonely, and it seems like reaching up
Might break you down, dont go under
If I could fly, Id spread my wings
In time to free you from these foolish things
And we wont be back for sure
If its in my mind, its on my face
Wish I could take you to a better place
But we just might miss your call
No one knows your face in the world
Maybe thats your reason to leave
I think you might be someone that I came to see
Youre real, if you feel like waking up then come around
Do you wonder?
And if I could fly, Id spread my wings
In time to free you from these foolish things
And we wont be back for sure
If its in my mind, its on my face
Wish I could take you to another place
But we just might miss your call
Cause we live in the world
We live in the world
We live in the world
Were free in this world
I have made mistakes Ive wasted life
And Ive been down you see
Why are the friends I have could not make time for me?
I have lost my face Ive broken ground
Ive been around you know
Far are the loudest voice that waits inside, the time is now
The time is now, the time is now
If I could fly, Id spread my wings
In time to free you from these foolish things
And we wont be back for sure
If its in my mind, its on my face
Wish I could take you to a better place
And we just might miss your call
If you cant find your place in this world
Your life means something to me
Feels like every Mondays just a day in the week
If you're lonely, and it seems like reaching up
Might break you down, dont go under
