

# Amen

## Kid Rock

It's another night in hell, another child won't live to tell

Can you imagine what it's like to starve to death?

And as we sit free and well, another soldier has to yell

"Tell my wife and children I love them," in his last breathC'mon now amen

(Amen)

Amen

(Amen)Habitual offenders, scumbag lawyers with agendas

I'll tell you sometimes people I don't know what's worse

Natural disasters or these wolves in sheep clothes pastors

Now goddamn it I'm scared to send my children to churchAnd how can we seek salvation when our nations race  
relations

Got me feeling guilty of being white

But faith in human nature, our creator and our savior

I'm no saint but I believe in what is rightC'mon now amen

(Amen)

I said amen

(Amen)Stop pointing fingers and take some blame

Pull your future away from the flame

Open up your mind and start to liveStop short changing your neighbors

Living off hand outs and favors

And maybe give a little bit more than you got to give, got to giveSimplify, testify, identify, rectify

And if I get high stop being so uptight

It's only human nature and I am not a stranger

So baby won't you stay with me tonight?And when I cross away, I'm breaking down

I steal the sound to be someone, oh to be someone

You just settle down, ain't holding back

You've called the grace of God and then He saves a child

Wanna save a child?It's a matter of salvation from them patience up above

So don't give up so damn easy on the one you love

(One you love)Somewhere you got a brother, sister, friend

Grandmother, niece or nephew just dying to be with you

You know there's someone out there

Who unconditionally, religiously, loves you

So just hold on 'cause you know it's trueAnd if you can take the pain, you can withstand anything

And one day stand hand in hand with the truthI said amen

(Amen)

I said amen

(Amen)

I said amen

(Amen)  
I said amen  
(Amen)Amen  
Amen  
Amen  
...
