Magic Rabbit

My Brightest Diamond

I heard the magic that would sing
Maybe I took her from her mother too early
She never came out of recovery
Even on summer days
She'd complain
She couldn't take the chill
Out of her bones
Maybe I took her from her mother too early
I put her outside in the sunshine
All the rabbits died
For supper tonight
All the rabbits died
In the spotlight
I heard the magic that would sing
And, boy oh boy, was she a pretty thing
Yeah
By some grave mystery

She looked at me like she was wearing thin
Are you fading away, magic?
(All the rabbits died)
Are you fading away?
Are you fading away?
All the rabbits died
Are you fading in the spotlight?
Are you fading away, magic?
Are you fading away?
All the rabbits died
Are you fading away in the spotlight?
Are you fading, my magic rabbit?
Magic
Are you fading away, magic?
Are you fading away, my magic rabbit?
Rabbit (4x)
